## Imagine...

you are in an accident, or  
develop a serious illness, and you can't  
make health care decisions for yourself.

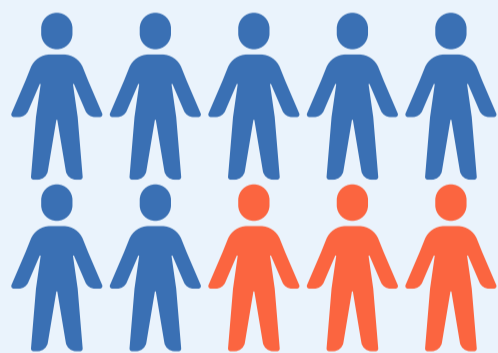

- Who would make those decisions for you?
- Would they really know what you want?
- Did you complete the Wisconsin legal document?

of people think it is important to talk  
about end-of-life wishes.

32%

Only 32% have actually had a  
conversation about their wishes

THAT'S ONLY  
3 OUT OF 10  
THAT HAVE LOVED ONES  
WHO KNOW WHAT TO DO

Source: The Conversation Project (2019, April 8)

Advance Care Planning is making sure  
the people who matter,  
know what matters most to you  
so they can follow your wishes.

It includes thinking about, talking about, and  
writing down your wishes for future health care  
so they don't have to wonder, or carry the  
burden of "did we do the right thing?"
